

Press Release

December 1, 2007

EasyCo LLC appointed US distributor for Mtron Flash SSDs

EasyCo LLC and Mtron have signed a distribution agreement. EasyCo will distribute Mtron's Flash SSDs in North America. EasyCo will also make Mtron devices available worldwide with EasyCo's Managed Flash Solution (MFT). MFT solves the random write problem of Flash SSDs, increasing the random write speed by at least a hundred-fold. As a result, Mtron Drives, when used with MFT, run fifty times faster than the fastest hard disk drive made, and are capable of a sustained 14,000 I/Os a second, per drive.

EasyCo currently stock both Mtron MOBI and Mtron PRO Flash SSDs, and can normally ship either from stock, or within two weeks for larger orders. As evidenced by its MFT offering and technical papers, EasyCo's emphasis will be on providing technical expertise to solve problems, rather than merely selling product. But expertise will not cost more. EasyCo offers competitive prices, as well as quantity and reseller discounts. Quantity-1 prices for the Mtron products are:

MOBI	3025-16	2.5"	SATA	16GB	\$513
MOBI	3025-32	2.5"	SATA	32GB	\$952

PRO	7025-16	2.5"	SATA	16GB	\$783
PRO	7025-32	2.5"	SATA	32GB	\$1197

PRO	7035-16	3.5"	SATA	16GB	\$794
PRO	7035-32	3.5"	SATA	32GB	\$1208
PRO	7025-64	3.5"	SATA	64GB	\$2026

Contact EasyCo for more information or specific availability.
